Resignation letters for 3 board members were received during July. We are grateful for the contributions of Mark and Kathy Hontz and Bob Edmonds. There are currently 7 Board members.

Lake Condition: Barbara used graphs to compare 2025 and 2026 water level by month. We are entering late fire season with deeper water this year. She is researching a partnership with PG&E for a favored rate plan for the well pump to keep an adequate depth for aerial firefighting. A timer for the well pump was discussed to avoid peak electric rates. Methods to better oversee and maintain compressors and the entire aeration system was discussed; also discussed considering installing a water meter at the well to monitor any changes in production. Don and Ron will try to meet with City Manager, Jim Lewis, follow up on creek line repairs.

Lori Kramer made contact with CalPoly regarding any CP staff or students who might be interested in studying any of various aspects of Lake health. Correspondence on file.

Mark arranged 'Save the Date' ads for 2027 LakeFest in New Times, monthly thru 2026.

Dan and Mark will man a table at the car show to promote Friends of Atascadero Lake and LakeFest 2027.

Respectfully submitted,
